

I. IDENTIFICATION DATA

Thesis title:	The New Peace Treaty Between Israel and the UAE and its Implications
Author's name:	Sarel Israel
Type of thesis :	bachelor
Faculty/Institute:	Faculty of Transportation Sciences (FTS)
Department:	Department of Air Transport
Thesis reviewer:	Ing. Vladislav Pružina, Ph.D.
Reviewer's department:	Pan-European University, Department of Air Transport

II. EVALUATION OF INDIVIDUAL CRITERIA

Assignment	ordinarily challenging
<i>How demanding was the assigned project?</i>	
<p>Student SAREL choosed an up to date theme concerning last course of events in a Middle East. The topic of thesis is to analyse current status of air transport in Israel and influence of the Peace Agreement between Israel and United Arab Emirates to it.</p> <p>Student worked in a real time when the Iron Swords War was unleashed by Hamas in October 2023. I realize shaping this work in this context was very demanding for Mr. SAREL.</p>	

Fulfilment of assignment	fulfilled with minor objections
<i>How well does the thesis fulfil the assigned task? Have the primary goals been achieved? Which assigned tasks have been incompletely covered, and which parts of the thesis are overextended? Justify your answer.</i>	
<p>Student clearly explain implications of the Peace Agreement between 2 coutries for the extension and growth of air transport by which he fulfilled the main assigned task. He was also focused as a second task to make a survey what are Israelis preferences for their travelling abroad and what will be suggested by the foreign airlines to make to attract Israeli travellers.</p> <p>Mr. SAREL showed long-term effort of Israeli Air Administration in generally for high level of Safety and Security and how its changed as an impact of current Iron Swords War. These direction for Safety and Security influenced the meaning and preferences of Israelis for choose of airline for travel.</p>	

Methodology	correct
<i>Comment on the correctness of the approach and/or the solution methods.</i>	
<p>Student SAREL proceeded logically.</p> <p>First he introduced historical and political genesis of all course of events in a Middle East to create background for his thesis. Based on that he introduced an actual data and numbers of the air traffic volume before Treaty and after. These data was statistically presented. He mentioned also impact of SARS - Cov 2 pandemia.</p> <p>For the second task he fulfilled a survey. I appreciate number (648) of respondents. Composition of respondents was very well counterbalanced. Outcome from this survey was adequately presented.</p>	

Technical level	D - satisfactory.
<i>Is the thesis technically sound? How well did the student employ expertise in the field of his/her field of study? Does the student explain clearly what he/she has done?</i>	
<p>Thesis was not extraordinarily demanded for a technical level of work. But student clearly explained needed results and created own understandable conclusions.</p>	

Formal and language level, scope of thesis**C - good.**

Are formalisms and notations used properly? Is the thesis organized in a logical way? Is the thesis sufficiently extensive? Is the thesis well-presented? Is the language clear and understandable? Is the English satisfactory?

Formal side is adequate. Language is adequate and proper. English in a good level. Work is organized by a logic way.

Scope of this thesis was limited by his extension to particular territory and bilateral relations. Despite of this fact student proved positive impact of overall peace endeavour for a growth of air transport.

Actual situation in Israel Mr. SAREL describe an actual situation in Israel: He also presented his prediction to future development in air transport between Israel and UAE and other neighboring countries.

Selection of sources, citation correctness**D - satisfactory.**

Does the thesis make adequate reference to earlier work on the topic? Was the selection of sources adequate? Is the student's original work clearly distinguished from earlier work in the field? Do the bibliographic citations meet the standards?

There are sufficient numbers of sources. Citations are presented by an average way.

Additional commentary and evaluation (optional)

Comment on the overall quality of the thesis, its novelty and its impact on the field, its strengths and weaknesses, the utility of the solution that is presented, the theoretical/formal level, the student's skillfulness, etc.

I appreciate effort and willingness of Mr. Sarel to finish his study in CTU. I know him from not only from classes in CTU (Multi Crew Cooperation) where he showed activity but also from practical flight training.

His endavour to finish his study and wish to be an airline pilot is really exemplary. This effort is complicated by the current status and war situation in his country.

III. OVERALL EVALUATION, QUESTIONS FOR THE PRESENTATION AND DEFENSE OF THE THESIS, SUGGESTED GRADE

Summarize your opinion on the thesis and explain your final grading. Pose questions that should be answered during the presentation and defense of the student's work.

I consider this student's work in a **good level**. Goal of this level was reached.

Questions for defense:

1. Are there any chance for Peace Treaty conclusion with another country in Middle East region?
2. Are there any Extraordinary Operational Procedures for the pilots and flight of your airline and flight dispatchers as an impact of current war events?

The grade that I award for the thesis is **C - good**.
