Professional level and contribution of the master’s thesis................ B (very good) ... 1,5
Formal aspects of the master’s thesis...................................................... B (very good) ... 1,5

Further comments to the master’s thesis:

An interesting and well conducted master thesis. The actual work took longer time than usual but it arranging and conducting a driving simulator experiment is challenging.

I recommend the master’s thesis for the defence.

Summary classification of the - select - thesis .............. B (very good) ... 1,5
