III. OVERALL EVALUATION, QUESTIONS FOR THE PRESENTATION AND DEFENSE OF THE THESIS, SUGGESTED GRADE

The diploma thesis is mainly descriptive in nature. Most of the text is devoted to explaining key concepts related to the topic including methodology and metrics for how research can be conducted. The author studied large number of sources, not all of them are quoted properly. The application part is weaker. It does not contain any own primary survey in the investigated company J&J and is based mostly on the description of company programs and policy. Therefore, I propose a final grade of C.

The grade that I award for the thesis is **C - good**.

Question for debate: Which of the factors affecting the Quality of Working Life do you currently consider critical?
