Professional level and contribution of the master's thesis ............... C (good) ... 2,0
Formal aspects of the master's thesis ....................................... B (very good) ... 1,5

Further comments to the master's thesis:
Master thesis covers very actual topic but in my opinion there was required more time to achieve better quality and provide more clear and understandable goals, mainly in practical part where there is described implementation of planning system.

I recommend the master's thesis for the defence.

Summary classification of the master's thesis............................... C (good) ... 2,0
