# Supervisor's statement of a final thesis

**Czech Technical University in Prague**

**Faculty of Information Technology**

**Student:** Bc. Jakub Žitný  
**Supervisor:** Jan Vitek, M.Sc.  
**Thesis title:** Analysing JavaScript and NPM at scale  
**Branch of the study:** Knowledge Engineering

**Date:** 19. 1. 2017

| 1. Difficulty and other comments on the assignment | 1 = extremely challenging assignment,  
2 = rather difficult assignment,  
3 = assignment of average difficulty,  
4 = easier, but still sufficient assignment,  
5 = insufficient assignment |

**Criteria description:**  
Characterize this final thesis in detail and its relationships to previous or current projects. Comment what is difficult about this thesis (in case of a more difficult thesis, you may overlook some shortcomings that you would not in case of an easy assignment, and on the contrary, with an easy assignment those shortcomings should be evaluated more strictly.)

**Comments:**  
The main challenge was working with very large data sets.

| 2. Fulfilment of the assignment | 1 = assignment fulfilled,  
2 = assignment fulfilled with minor objections,  
3 = assignment fulfilled with major objections,  
4 = assignment not fulfilled |

**Criteria description:**  
Assess whether the thesis meets the assignment statement. In Comments indicate parts of the assignment that have not been fulfilled, completely or partially, or extensions of the thesis beyond the original assignment. If the assignment was not completely fulfilled, try to assess the importance, impact, and possibly also the reason of the insufficiencies.

**Comments:**  
The thesis meets my expectations.

| 3. Size of the main written part | 1 = meets the criteria,  
2 = meets the criteria with minor objections,  
3 = meets the criteria with major objections,  
4 = does not meet the criteria |

**Criteria description:**  
Evaluate the adequacy of the extent of the final thesis, considering its content and the size of the written part, i.e. that all parts of the thesis are rich on information and the text does not contain unnecessary parts.

**Comments:**  
Adequate.

</table>

**Criteria description:**  
Assess whether the thesis is correct as to the facts or if there are factual errors and inaccuracies. Evaluate further the logical structure of the thesis, links among the chapters, and the comprehensibility of the text for a reader.

**Comments:**  
Correct.

**Criteria description:**  
Assess the correctness of formalisms used in the thesis, the typographical and linguistic aspect s, see Dean's Directive No. 12/2014, Article 3.

**Comments:**  
Mostly fine, small errors and imprecisions here and there.

**Criteria description:**  
Evaluate the student's activity in acquisition and use of studying materials in his thesis. Characterize the choice of the sources. Discuss whether the student used all relevant sources, or whether he tried to solve problems that were already solved. Verify that all elements taken from other sources are properly differentiated from his own results and contributions. Comment if there was a possible violation of the citation ethics and if the bibliographical references are complete and in compliance with citation standards.

**Comments:**  
There was little previous work.
7. Evaluation of results, publication outputs and awards  

Criteria description: 
Comment on the achieved level of major results of the thesis and indicate whether the main results of the thesis extend published state-of-the-art results and/or bring completely new findings. Assess the quality and functionality of hardware or software solutions. Alternatively, evaluate whether the software or source code that was not created by the student himself was used in accordance with the license terms and copyright. Comment on possible publication output or awards related to the thesis. 

Comments: 
The finds are new.

8. Applicability of the results 

Criteria description: 
Indicate the potential of using the results of the thesis in practice. 

Comments: 
The results will be interesting to researchers working on analysis of JavaScript. This is a small but lively community.

9. Activity and self-reliance of the student 

Criteria description: 
Review student's activity while working on this final thesis, student's punctuality when meeting the deadlines and consulting continuously and also, student's preparedness for these consultations. Furthermore, review student's independency. 

Comments: 
The student worked by himself.

10. The overall evaluation 

Criteria description: 
Summarize the parts of the thesis that had major impact on your evaluation. The overall evaluation does not have to be the arithmetic mean or any other formula with the values from the previous evaluation criteria 1 to 9. 

Comments: 
The thesis could have gone in more depth, I have communicated some change requests to the students, but the main work is there.
