## Supervisor's statement of a final thesis

## **Czech Technical University in Prague**

Student:	Bc. Jakub Žitný	
Supervisor:	Jan Vitek, M.Sc.	
Thesis title:	Analysing JavaScript and NPM at scale	
Branch of the study:	Knowledge Engineering	

Date: 19. 1. 2017

Evaluation criterion:	The evaluation scale: 1 to 5.
1. Difficulty and other comments on the assignment	<ol> <li>1 = extremely challenging assignment,</li> <li>2 = rather difficult assignment,</li> <li>3 = assignment of average difficulty,</li> <li>4 = easier, but still sufficient assignment,</li> <li>5 = insufficient assignment</li> </ol>
Criteria description: Characterize this final thesis in detail and its relationships to previous or current projects overlook some shortcomings that you would not in case of an easy assignment, and or strictly.)	
Comments:	
The main challenge was working with very large data sets.	
Evaluation criterion:	The evaluation scale: 1 to 4.
2. Fulfilment of the assignment	<ul> <li><u>1 = assignment fulfilled,</u></li> <li>2 = assignment fulfilled with minor objections,</li> <li>3 = assignment fulfilled with major objections,</li> <li>4 = assignment not fulfilled</li> </ul>
Criteria description: Assess whether the thesis meets the assignment statement. In Comments indicate parts the thesis beyond the original assignment. If the assignment was not completely fulfilled,	of the assignment that have not been fulfilled, completely or partially, or extensions of
Comments:	
The thesis meets my expectations.	
Evaluation criterion:	The evaluation scale: 1 to 4.
3. Size of the main written part	$\frac{1 = meets the criteria,}{2 = meets the criteria with minor objections,}3 = meets the criteria with major objections,$
	4 = does not meet the criteria
Criteria description: Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts.	4 = does not meet the criteria
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments:	4 = does not meet the criteria
Evaluate the adequacy of the extent of the final thesis, considering its content and the si- does not contain unnecessary parts.	4 = does not meet the criteria
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion:	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F).
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. <i>Comments:</i> Adequate.	<i>4 = does not meet the criteria</i> ze of the written part, i.e. that all parts of the thesis are rich on information and the text
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4. Factual and logical level of the thesis Criteria description: Assess whether the thesis is correct as to the facts or if there are factual errors and inaccu the comprehensibility of the text for a reader.	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F). 100 (A)
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4. Factual and logical level of the thesis Criteria description: Assess whether the thesis is correct as to the facts or if there are factual errors and inaccu the comprehensibility of the text for a reader. Comments:	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F). 100 (A)
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4. Factual and logical level of the thesis Criteria description: Assess whether the thesis is correct as to the facts or if there are factual errors and inaccu the comprehensibility of the text for a reader.	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F). 100 (A)
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4. Factual and logical level of the thesis Criteria description: Assess whether the thesis is correct as to the facts or if there are factual errors and inaccu the comprehensibility of the text for a reader. Comments: Correct. Evaluation criterion:	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F). 100 (A) uracies. Evaluate further the logical structure of the thesis, links among the chapters, and The evaluation scale: 0 to 100 points (grade A to F).
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4. Factual and logical level of the thesis Criteria description: Assess whether the thesis is correct as to the facts or if there are factual errors and inaccu the comprehensibility of the text for a reader. Comments: Correct. Evaluation criterion: 5. Formal level of the thesis	4 = does not meet the criteria ze of the written part, i.e. that all parts of the thesis are rich on information and the text The evaluation scale: 0 to 100 points (grade A to F). 100 (A) uracies. Evaluate further the logical structure of the thesis, links among the chapters, and
Evaluate the adequacy of the extent of the final thesis, considering its content and the six does not contain unnecessary parts. Comments: Adequate. Evaluation criterion: 4.
