SUPERVISOR’S REPORT
ON THE MASTER’S THESIS

Master's thesis title .......................................Generating Traveller Location Data from a Microsimulation Model

Author (including degrees) .........................Johannes Schlagheck
Master's thesis supervisor (incl. deg.) ........Tomas Tichy

Evaluation criteria and their classification

Fulfilment of the master's thesis requirements and goals ............A (excellent) ... 1,0
Self-action and own initiative during the master's thesis elaboration ............................................A (excellent) ... 1,0
Application of knowledge gained by self study and from professional literature ................................A (excellent) ... 1,0
Usage of groundwork and data from practice ........................................A (excellent) ... 1,0
Professional level and contribution of the master’s thesis ........A (excellent) ... 1,0
Formal aspects of the master’s thesis ..................................................A (excellent) ... 1,0

Further comments to the master's thesis:

Student have worked very good work in the area of mobile data connection to use in transport modeling using SW AIMSUN. The topic was handled very well and the supervisor would have been welcomed and continuous partial results, but they are processed at a high level.

I recommend the master’s thesis for the defence.

Summary classification of the master’s thesis .............. A (excellent) ... 1,0
