Bachelor thesis supervisor’s review

Master thesis: Integration of the renewable energy sources to distribution network
Author: Orashayev Zhanibek

Rating (1 – 5)
(1 = best; 5 = worst):

1. Fulfillment of assignment requirements: 2
2. Self-reliance and initiative during the thesis solution: 3
3. Systematic solutions of individual tasks: 2
4. Ability to apply knowledge and to use literature: 3
5. Collaboration and consultations with the thesis supervisor: 2
6. Thesis formal and language level: 2
7. Thesis readability and structuring: 3
8. Thesis professional level: 3
9. Conclusions and their formulation: 3
10. Final mark evaluation (A, B, C, D, E, F): verbal: D

Brief summary evaluation of the thesis (compulsory):

In Bachelor’s thesis the student presents an overview of the types of renewable energy sources. In the next part of the work he describes the principle of photovoltaic and solar thermal power plants. The student performs a calculation of the impact of the new photovoltaic plants on the MV distribution network. The work has a logical sequence of chapters and its graphical design is very good.

Student worked on his task independently and initiatively throughout the period. The student came to the consultations prepared and to the solution of the tasks he approached with interest.

Recommendation to the defense: I recommend

Notes:

1) The total thesis evaluation needn’t be determined by the partial evaluations average.
2) The total evaluation (item 8) should be from the following scale:

<table>
<thead>
<tr>
<th>excellent</th>
<th>very good</th>
<th>good</th>
<th>satisfactory</th>
<th>sufficient</th>
<th>insufficient</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>B</td>
<td>C</td>
<td>D</td>
<td>E</td>
<td>F</td>
</tr>
</tbody>
</table>
