

Master thesis supervisor's review

Master thesis: Decentralization of Electricity Production in Distribution Network

Author: Karim Abdul Issakar

Thesis supervisor: Ing. František Vybíralík, CSc.

Rating (1 – 5)
(1 = best; 5 = worst):

1. Fulfillment of assignment requirements:	1
2. Self-reliance and initiative during the thesis solution:	1
3. Systematic solutions of individual tasks:	1
4. Ability to apply knowledge and to use literature:	1
5. Collaboration and consultations with the thesis supervisor:	1
6. Thesis formal and language level:	2
7. Thesis readability and structuring:	2
8. Thesis professional level:	1
9. Conclusions and their formulation:	1
10. Final mark evaluation (A, B, C, D, E, F):	A

verbal:
Excellent

Brief summary evaluation of the thesis (compulsory):

In Master's thesis the student presents main features of electricity power system. The theoretical part of the work is focused to the hydro power plants. The student carried out a calculation of the impact of the new hydro power plant on the river Labe into the MV distribution network in two variants.

The work has a logical sequence of chapters and its graphical layout is very good.

Student worked on his task independently and very initiatively throughout the period. He came to the consultations prepared and your questions were oriented to the subject of your thesis.

Recommendation to the defense: I recommend

Notes:

- 1) The total thesis evaluation needn't be determined by the partial evaluations average.
- 2) The total evaluation (item 8) should be from the following scale:

excellent	very good	good	satisfactory	sufficient	insufficient
A	B	C	D	E	F
