Concept

Ambiental section view is from north side.

Ambiental section view is from south side from highway.

Graphic exploration of the complex concept. It is visible how they are connected both inside and connected with future proposed forms. The building should be designed to enhance the visual impact of the Prague Castle.

Conceptual connection between museum building and Bolechov bedroom. Conceptual approach of the tower and figrated part of the building. Visual impact of the building can be integrated on the green and visible particularly if the building is illuminated. Conceptual section of the building and visitors on the same time it images with surrounding. Movement is central against a wall of the building. The building is designed to enhance the visual impact.
