

I. IDENTIFICATION DATA

Thesis name:	Analysis of the Reduction of Emissions from Ships in Europe
Author's name:	Gökhan Yegnidemir
Type of thesis :	master
Faculty/Institute:	Faculty of Electrical Engineering (FEE)
Department:	Department of Economics, Management and Humanities
Thesis supervisor:	Július Bemš
Supervisor's department:	Department of Economics, Management and Humanities

II. EVALUATION OF INDIVIDUAL CRITERIA

Assignment <i>Evaluation of thesis difficulty of assignment.</i>	challenging
I consider the topic as challenging.	

Satisfaction of assignment <i>Assess that handed thesis meets assignment. Present points of assignment that fell short or were extended. Try to assess importance, impact or cause of each shortcoming.</i>	fulfilled
Thesis meets all requirements without any shortcomings.	

Activity and independence when creating final thesis <i>Assess that student had positive approach, time limits were met, conception was regularly consulted and was well prepared for consultations. Assess student's ability to work independently.</i>	A - excellent.
The student had a very positive approach; he was regularly coming for consultation. Gökhan was bringing new ideas and solutions for non-trivial problems, and he was always coming perfectly prepared. He is very able to work independently.	

Technical level <i>Assess level of thesis specialty, use of knowledge gained by study and by expert literature, use of sources and data gained by experience.</i>	A - excellent.
Diploma thesis technical level is excellent. The author used knowledge from expert literature and was independently able to use it for the solution of the specific problem.	

Formal and language level, scope of thesis <i>Assess correctness of usage of formal notation. Assess typographical and language arrangement of thesis.</i>	A - excellent.
Formal and language level is excellent. I did not find any shortcomings.	

Selection of sources, citation correctness <i>Present your opinion to student's activity when obtaining and using study materials for thesis creation. Characterize selection of sources. Assess that student used all relevant sources. Verify that all used elements are correctly distinguished from own results and thoughts. Assess that citation ethics has not been breached and that all bibliographic citations are complete and in accordance with citation convention and standards.</i>	A - excellent.
The student was very active when obtaining and using study materials. He had chosen all relevant available sources. In addition to this, he came through many scientific articles and business reports, actively contacting authors and gathering the required data. I found no violation of the citation system and conventions.	

Additional commentary and evaluation <i>Present your opinion to achieved primary goals of thesis, e.g. level of theoretical results, level and functionality of technical or software conception, publication performance, experimental dexterity etc.</i>	

SUPERVISOR'S OPINION OF FINAL THESIS

III. OVERALL EVALUATION, QUESTIONS FOR DEFENSE, CLASSIFICATION SUGGESTION

Quality of this thesis is exceptional and belongs among the best theses I was supervising. It was a pleasure to work with Gökhan. He is a very enthusiastic student, works independently and comes with new ideas and solutions. Consultations with him were very effective and I found them interesting. The topic was absolutely new for him and he was able systematically to deal with it and achieve outstanding results. I recommend this thesis for dean's award.

I evaluate handed thesis with classification grade **A - excellent**.
