

Product Parameters

Machine model	Ender-3 Pro
Molding technology	FDM(Fused Deposition Molding)
Printing size	220*220*250mm
Printing speed	≤180mm/s, normal 30-60mm/s
Printing precision	±0.1mm
Nozzle diameter	standard 0.4mm, can be in 0.3 or 0.2mm
Hotbed temperature	≤100°C
File transfer	Online or SD card offline
File format	STL, OBJ, AMF
Slicing software	Cura/Repetier-Host/Simplify3D
Power supply	input: AC 100-120V/6.8A 200-240V/3.4A 50/60HZ output: DC 24V 270W
Filament	PLA, ABS, TPU, wood, copper, gradient, etc.
N.W.	6.98kg
Machine size	440*420*465mm
G.W.	9kg
Packaging size	600*505*175mm
