

I. IDENTIFICATION DATA

Thesis title:	The influence of graphene oxide nanosheets on concrete properties on micro level
Author's name:	Bc. Anudari Nyamsuren
Type of thesis :	master
Faculty/Institute:	Faculty of Civil Engineering (FCE)
Department:	Department of Concrete and Masonry Structures
Thesis reviewer:	prof. Ing. Petr Štemberk, Ph.D., D.Eng.
Reviewer's department:	Department of Concrete and Masonry Structures, FCE CTU in Prague

II. EVALUATION OF INDIVIDUAL CRITERIA

Assignment	challenging
<i>How demanding was the assigned project?</i>	
A novel building material is considered for assessment of its real effectiveness within the scope of this thesis.	

Fulfilment of assignment	fulfilled
<i>How well does the thesis fulfil the assigned task? Have the primary goals been achieved? Which assigned tasks have been incompletely covered, and which parts of the thesis are overextended? Justify your answer.</i>	
All goals and aspects of the diploma thesis were fulfilled.	

Activity and independence when creating final thesis	A - excellent.
<i>Assess whether the student had a positive approach, whether the time limits were met, whether the conception was regularly consulted and whether the student was well prepared for the consultations. Assess the student's ability to work independently.</i>	
The student showed her independence and a pro-active approach throughout the semesters despite the effect of covid-19 situation, including online work from Mongolia due to prohibited re-entry to Czechia.	

Technical level	A - excellent.
<i>Is the thesis technically sound? How well did the student employ expertise in his/her field of study? Does the student explain clearly what he/she has done?</i>	
The technical level is very high.	

Formal level and language level, scope of thesis	A - excellent.
<i>Are formalisms and notations used properly? Is the thesis organized in a logical way? Is the thesis sufficiently extensive? Is the thesis well-presented? Is the language clear and understandable? Is the English satisfactory?</i>	
The diploma thesis was processed diligently and is free of any apparent flaws. The use of technical terms is adequate and understandable.	

Selection of sources, citation correctness	A - excellent.
<i>Does the thesis make adequate reference to earlier work on the topic? Was the selection of sources adequate? Is the student's original work clearly distinguished from earlier work in the field? Do the bibliographic citations meet the standards?</i>	
The selection of sources is adequate and follows the student's needs.	

Additional commentary and evaluation (optional)
<i>Comment on the overall quality of the thesis, its novelty and its impact on the field, its strengths and weaknesses, the utility of the solution that is presented, the theoretical/formal level, the student's skillfulness, etc.</i>
void

THESIS SUPERVISOR'S REPORT

III. OVERALL EVALUATION, QUESTIONS FOR THE PRESENTATION AND DEFENSE OF THE THESIS, SUGGESTED GRADE

Summarize your opinion on the thesis and explain your final grading.

This diploma thesis evidences the student's advancement in her theoretical and practical skills.

Despite the covid-19 situation, which hindered the progress of laboratory work, all necessary experimental data were obtained by the student in timely manner, which allowed their processing and including in the thesis.

The grade that I award for the thesis is **A - excellent**.

Date: **24.1.2022**
