

MASTER THESIS : Evaluation and Awarding Marks

Technical masters

Name, first name	Ruiz de Asua, Gonzalo
Topic	Air suspension modeling
Company	VB-Airsuspension B.V.
Company representative	Iwan Outmans

Evaluation (for criteria cf. back of this sheet)

The Master thesis / Major Project will be assessed by the examiners assisted by an external expert, the company coach and the main supervisor. The names of the examiners will be made known to the Masters candidate when work on the thesis ends (after the last GO).

	Mark	Motivation
Knowledge and understanding C1: Analyzing and defining problems C5: Conducting Research Weight factor 1	8	Gonzalo showed in his work, report & defense that he knows what he is talking about. He understands the problem and the context well and showed he is 'above' the work.
Applying knowledge and understanding C2: Design C3: Testing C4: Managing work processes Weight factor 1	8	He properly applied his know. & understand. in a multibody model and analyzed test data and simulation data well. He used methods from literature to evaluate his results well.
Making judgments C1: Analyzing and defining problems C2: Design C4: Managing work processes C5: Conducting Research Weight factor 1	7	Good, but sometimes a bit more reflection / analysis can be done, sometimes he 'jumps to conclusions' a bit.
Communication C1: Analyzing and defining problems C6: Communication and Collaboration Weight factor 1	7	Good, he shows enthusiasm and eagerness. Presentation and defense was a bit too fast: answering started sometimes before the question was posed.
Learning Skills C7: Professional development Weight factor 1	8	Very good, he started off not so well in prof. skills and engineering skills, but improved a lot. He used feedback well and shows now to be on a good level.
Mark total	7.6
