

Description		
Mode of operation	CD	Single rod cylinder
Range	H1	Range H1
Mounting types	MF3	Round flange at head end
Bore diameter	80	D = 80 mm
Piston rod diameter	56	d = 56 mm
Stroke length	600	Stroke length = 600 mm
Design principle	A	Flanged head and cap
Component series	3X	30 to 39 unchanged installation and connection dimensions
Port connection / types	B	according to ISO 1179-1 (pipe thread ISO 228-1) EE = G 3/4 D4 = 42 (max. 0.5 mm deep)
Line connection/located at head	1	Top - viewed on the piston rod
Line connection/located at base	1	Top - viewed on the piston rod
Piston rod version	C	Hard chromium-plated
Piston rod end	N	With plain clevis head fitted CSA KK = M35x1.5 CA = 85 CK = 40
End position cushioning	U	Without
Seal version	M	Standard sealing system (for mineral oil HL, HLP and HFA)
Option	W	Without option
